**SODIUM CUMENESULFONATE - Powder**

**Description:** Nease Co. LLC has been a leader in hydrodrotropes for more than 40 years. NAXONATE® hydrodrotropes are a proven answer to solubility problems in a wide variety of commercial applications. Optimum hydrodrotrope selection can result in enhanced system performance. NAXONATE® hydrodrotrope products generate essentially no foam and no wetting action and have minimal influence on surface tension. What they offer is a cost-effective way to solubilize complex formulas, elevate cloud points and control viscosity.

NAXONATE® SC is a high activity hydrodrotrope supplied as a free flowing powder. Most widely used high activity hydrodrotrope. It is effective in powdered cleansers and detergents. Very effective for high concentration formulations.

**Typical Properties:**
- Specific Gravity @ 25°C: 0.33 – 0.40 g/ml
- Melting Point, °C: >300
- Molecular weight: 222
- Solubility in Water: Complete

**Product Specifications:**
